Notice is hereby given that certain lands in the Municipality of Wetaskiwin and The Wetaskiwin School District will be offered for sale for arrears of taxes on THURSDAY, the 3rd of August, A.D. 1916, at 10 a.m. in the Council Chamber, City Hall, Wetaskiwin, Alberta.

A full list of the said lands may be found in "The Wetaskiwin Times" a newspaper published at Wetaskiwin, in the issues of June 1st, 8th, 15th and 22nd, 1916.

The World's Markets

Chicago, July 18.—Denials of black rust spreading into Canada tended today to make wheat traders somewhat skeptical regarding damage reports. Accordingly the market, although pointed upward most of the time, closed unsettled at 1 1/2 to 1 3/4 net decline, with July at 1 1/4 and September 1 1/2. Corn gained 1/4 to 1 1/2 for one lot in 1 to 1 1/2 and provisions finished irregular, ranging from 10c decline to a rise of 12c.

For the most part, transactions in wheat were not of a scalping character, and were not governed by any well-defined settlement as to values. Assertions that yields and quality of the spring crop had been seriously impaired by black rust led to continued uneasiness, and there were reports from some authorities that the rust spots had attacked the stems of the plant already. Unqualifiedly, however, yesterday's advice that the next big spread northward over the Canadian border did a good deal to bring about rather aggressive action at a time on the hard spots on the market.

World's purveyors of what gave considerable attention to Liverpool dispatches saying that the unfavorable weather in all producing countries was causing British buyers to become nervous. In this connection it was pointed out that in 1904 black rust resulted in a crop shrinkage of 50,000,000 bushels of wheat, and in August, and that meanwhile the Chicago market advanced 26 cents a bushel. Export sales today were estimated at 600,000 bushels, including 250,000 bushels of hard winter wheat, to be shipped by way of the Gulf of Mexico.

An amusing instance of how the strong impressions of the situation in Canada is created is reported by an officer of the G.T.P. railway. A party had been formed in a Princeton town with a view to spending the vacation in Canada. Everything was in readiness to begin the journey, when a lady member of the party received a letter from her aunt in Toronto. "We are all busy here knitting for the soldiers," wrote the aunt. "I have a great deal of time on my hands. This innocent phrase was wrongly constructed, and passing from one person to another became so exaggerated that it was eventually agreed that it would be inadvisable to visit a country so given up to war preparations that even the ladies could not escape their knitting to welcome visitors."

PLEASANT PRAIRIE

Local Colon U.P.A. unloaded a car of wine on Saturday. Wetaskiwin Adam Kaser, Jr., and family moved to the Edmonton exhibition last week.

Carl Poth is seriously ill from blood poisoning in his arm, and is now in the Wetaskiwin hospital.

Arnold Tipper and wife, is visiting his parents, Mr. and Mrs. A. Tipper.

A number of young ladies surprised the local bachelors by inviting them to a leap year party at the home of Mr. and Mrs. Emmerling on the evening of July 13, and it is needless to say they acquitted themselves nobly. Supper was served at midnight and dancing and games were the amusements.

On Thursday evening the bachelors held a conference and agreed to get up a Bhubar and Gooseberry social at J. Madden's, the young ladies to furnish the sweetening. Ward Cooley and Richard Emmerling had charge of the amusements, the decorations were furnished by the ladies.

Among those present were Handsome Harry, Hatty Duffy, the Calgary Kid, the Playlight Kid and the Prairie Scree.

Among those present were Handsome Harry, Hatty Duffy, the Calgary Kid, the Playlight Kid and the Prairie Scree.

At the leap year party—She— "May I see you home?" He— "No, but you may see me start," and a Ruth took Jake home and Jim followed after her.

Visitors—Gus Dineau and family at William Bolt's.

Misses Martha and Lizzie Emmerling, Hilda and Martha Kaiser, Martha Bauer, Emma Smith, Augusta Daux, Eleanor Krath, Gwendolyn Everts, Meena, Kater, Bivart, Bert Reynolds, William Krause, Gus Daux, Albert Daux, Richard Emmerling, Carl Emmerling, Arthur Kaiser, Ernest Kaiser, Thos. McCreary, English and Ward Cooley at J. Madden's on Sunday afternoon.

The morning girl, The sweet summer girl, She wears on her forehead, A dream of a curl, And the old father his, As she sits the wheel, Is enough to make any man's cranium reel.

Ward Cooley says the Scribe is talking through his millinery.

THE DEMISE OF ROVER

Poor dog, he's gone and left us, He's numbered with the dead, The Prairie Scribe he set a trap, In which he caught his head, May this pop gun never shoot again For many days to come, Till the Prairie Scribe is dead and gone, And in a lonesome tomb.

MULHURST

Miss McLean has returned from Edmonton where she has been visiting her parents and friends during her summer holiday. Although the time was quite short she appeared quite satisfied and has rejoined the Springfield school with the usual attendance.

Quite a number came out to Sabon school from Bonanza. The school has been reorganized by the school board and is being conducted by Austin Ayres in his usual excellent manner. Miss Wilcox, the secretary should be quite encouraging.

Mr. J. W. Dittler was very fortunate to call at R. Van Valkenburg's on Saturday evening as he had the pleasure to listen to some well rendered music by Miss McLean.

Mr. Van Valkenburg had a horse badly cut with barbed wire a few days ago.

We are having some campers at the north end of Pigeon Lake now. Mr. M. H. Graves has a Six Hundred Launch on the bay now. The chief end of the lake should attract more people as fairly good roads from Millet and a nice sandy beach and good fishing are to be found.

The secretary treasurer of the Springfield school district reports that the tax on the school property and all if all taxes due were paid the tax should not be more than five or six cents per acre next year.

The crops are looking quite hopeful. Miss R. J. Amiel of Wetaskiwin is visiting; Miss Wilcox, teacher at Bonanza Glen.

The militia department has decided that for the overseas forces no more H. Highland regiments will be authorized. Units at the front now wearing kilts will have to wear the kilt when their present uniforms are replaced by others. The chief reason for this change is that the kilts are not suitable for the trenches, especially in cold weather. There is some suggestion that the Highland regiments. The order will not affect the active militia regiments.

COULD NOT SLEEP

Nerves Were So Bad.

To the thousands of people who are losing on sleepless beds night after night, and to whose eyes sleep will not come, Alburn's Heart and Nerve Pills offer the blessed sound, refreshing slumber, because the deranged equilibrium of the deranged nerve currents, thus restoring strength and vitality to the whole system.

Mr. Arthur McCutcheon, M.T. Pigeon, N.B., writes: "I have been much troubled with my nerves, and could not sleep for hours after I would go to bed. I would toss and turn from one side to the other before I could go to sleep. I would then wake up in the night, and lie awake a long time before I would get to sleep again. I thought I would try Alburn's Heart and Nerve Pills, as they were recommended so highly. I now get to sleep without any trouble, and feel much more quiet, and when I lie down I go to sleep quickly. Anyone who is troubled with their nerves should keep a box on hand."

Alburn's Heart and Nerve Pills are 50 cents per box, 3 boxes for \$1.25; at all druggists or mailed direct on receipt of the tax to The T. Millum Co., Limited, Toronto, Ont.

A GRAND ARMY OF CANADA

Approximately 400,000 men will return to Canada from the war. If these form a Grand Army of Canada they will be one of the most potent of our national forces. They will gain a national influence in our municipal, provincial and federal politics and in our social, economic, industrial and commercial affairs. Yet who will say that this is not their right? Will they not be more deserving of the good things of life than those who have stayed at home in ease while Canada's soldiers at the front have faced death, wounds, and untold suffering and hardships in the country's cause? Only inordinately selfish and unsympathetic persons will begrudge the returned veterans suitable recognition of their heroism and self sacrifice, and such persons are very much in the minority, and will be even more so when the soldiers come back.

As Lord Northcliffe stated recently the returned soldiers will be supermen. They have walked hand in hand with death and have been unafraid. They have been willing to lay down their lives not for the last of fighting, although they are lusty fighters, but for a great principle which represents the liberty and safety of their families, their friends, their nation, and the world. They have acquired authority and have learned to respect. They will be big, sound men who have passed through a fiery furnace and been tempered and strengthened by the process. Would Canada be in dangerous hands were it controlled by these supermen? The globe thinks not, and we hope that the soldiers will form an association that will stretch from Atlantic to Pacific and from the United States border to Herschel Island—Lacombe Globe.

WHY ALL KINDS OF SHOES ARE SO HIGH IN PRICE

"My, but your shoes are awfully dear. The last pair that I got here cost me much less than you are asking now."

"I know it," remarked the courteous salesman, "but this is a matter over which we have no control."

What is the cause, for who was it an inquiring turn of mind, although no haggler about price. A woman in comfortable circumstances, without any extravagant tastes and of quiet ideas, she, like many others who have about all they can do to make ends meet financially, wanted to be given some plain, intelligent reason why there has been an advance before parting with so much more money for her footwear.

To avoid any such apprehension and to convince customers that all retailers of shoes are in the same plight, is evidence of efficient and progressive salesmanship. It is a part of the service which every boot store should render to its patrons. It is not to be supposed that every shoemaker runs an intelligence bureau or a department of public information, but he should have the facts at his command if he finds—as he frequently does—that persons do not always accept everything for granted and like to know the causes leading up to enhanced values in an article they purchase. Such a buyer feels much more satisfied and goes away with the feeling that the merchant has been compelled to pay more and in raising his selling figure is getting only a fair profit.

In the first place it may be pointed out that everything entering into the manufacture of footwear has been advanced and many things are still augmenting in price. This includes all kinds of leather and findings, even cartons and labels and labor, the latter being all the way from twenty to thirty per cent higher. Now the wage outlay does not mean that all operatives in a factory have received an increase in pay, but in a great many instances they have. What it does mean is that so many boot and shoe workers, the trained, skilled help, have joined the colors, and are now doing their bit in the present struggle for freedom and liberty. It means that many plants are running only about sixty per cent of their capacity whereas they have orders on hand or in sight that would keep them running overtime. All kinds of unskilled and unskilled labor has to be pressed into service,

Anyone knows that when a plant is not operating to its full capacity and yet has a volume of business on hand that would justify such activity, the cost of production goes up proportionately. The overhead expenses remain practically unchanged, and whether in an industrial or any other case, such a handling is a most trying problem to overcome.

All call leather has gone up during the past year from thirty to sixty per cent, patent leather at least 30 per cent, dull kid and glazed leather one hundred per cent and over, and all colored kid from two hundred per cent up. Sheepskins are from eighty to one hundred per cent higher, and sole stock, both oak and hawlock from thirty-five to fifty per cent. Insoles, heels and counters are fully twenty-five to fifty per cent more than a year ago; linings from fifteen to twenty-five per cent; leathers from one hundred to two hundred per cent, etc. etc. Then there have been very substantial advances in thread, nails, eyelets, hooks, buttons, shanks, pull straps, cement, wetting, and as some curious sale bills used to read, "other articles too numerous to particularize."

Why has leather gone up? Well, previous to the war, the bulk of the high-class calf skins in the world came from Europe, which supply has been practically shut off, owing to foreign embargoes, the absence of shipping facilities, the depleted number of merchantmen, the excessive war insurance risk, and ocean freight which costs about five times as much as it did two years ago.

Then there is the war tax of seven and a half per cent in Canada, and the increase in the cost of tanning, agencies, and dyes of all kinds. The increased cost of certain chemicals, south and east of Canada on Sunday evening last at 7 o'clock. It lasted only about fifteen or twenty minutes but accompanied by a heavy wind, it wiped out the entire crops of about twenty-five farmers and seriously damaged the crops of several more. About half of these crops were insured against hail but in many instances a total loss had resulted—Canadian.

Hail did considerable damage on Sunday evening west of town. Some of the farmers have laid claim to an entire loss, while others are as low as 20 per cent. The country south of Killam and part of the Pleasant district were also hit—Strome Dispatch.

During the six months just ended there have come to Western Canada 3,136 immigrants from the United States. These people brought with them \$2,314,425 in cash and effects, figures showing the remarkable development of immigration from the States have just been issued by the Commissioner of Immigration, J. Bruce Walker, of Winnipeg. As compared with the corresponding periods of 1915, each successive week of this year has shown a gratifying increase. For instance during the week ending June 27 last 302 settlers arrived. In the week ending June 23, 1915, there were 147 settlers.

WITH BRITAIN READY THE HUNS ADMIT THE OUTLOOK DESPERATE

While the predictions of the great Allied offensive on the western front were a long time in coming, they have come true at last—and we now know that the attack is being made on a scale quite as great as the most audacious had expected.

We all know from the refreshingly frank and detailed descriptions of the fighting which the censors have permitted to come through since the great offensive has been launched, just how much territory has been recovered, just how many prisoners have been taken, and approximately how great have been the casualties of the enemy. But we have learned something more valuable than all that, if we have looked into the significance of the German's resistance of the British advance in comparison with the much less strenuous opposition they have offered to the French.

When the attack was launched it

DIARRHOEA

Was Caused By
Change of Diet, Etc.

Diarrhoea arises from many causes such as change of diet, change of water, change of climate, catching cold, the eating of unripe fruits, or anything that causes or induces an excess of bile.

On the first sign of any looseness of the bowels it should not be neglected, but should be looked after immediately, for if not diarrhoea, dysentery or some other serious bowel complaint may ensue.

Mr. Geo. Smith, Victoria, B.C., writes: "It is five years ago since I first tried Dr. Fowler's Extract of Wild Strawberry. I was then on a timber survey, and suffered greatly from diarrhoea, caused by change of diet, etc. A friend in the party gave me a few doses which gave me great relief. Since then I have been very wary, and would be soon tired of starting out on a trip without my compass and blankets as without my supply of Dr. Fowler's Extract of Wild Strawberry, which I consider the woodsman's best friend."

Dr. Fowler's Extract of Wild Strawberry has been on the market for the past seventy years, and is universally known as a positive cure for all complaints arising from any looseness of the bowels.

When you ask for "Dr. Fowler's" be sure you receive what you ask for, for there are many rank imitations of this sterling remedy placed on the market to try and fool the unsuspecting public.

The genuine is manufactured by The T. Milburn Co., Limited, Toronto, Ont.

GOVERNMENT BULLETIN ON THE
PRODUCTION OF TIMOTHY
SEED

The Alberta department of agriculture has coming off the press a 2 available immediate distribution a bulletin on timothy seed production in Alberta. Last year about ten acres of Alberta timothy seed went into the eastern market, and the superiority of the Alberta kernel is as evident in the case of the timothy as it has been in the case of Marquis wheat and Banner oats.

The bulletin is quite timely. It deals with the market conditions and gives directions with regard to production and marketing. About 400,000 bushels, or two-thirds of the supply of timothy seed used in Canada, comes from the United States. Being produced on high priced lands and paying a 17 1/2 per cent war duty. It is easily seen at what an advantage the Canadian, and particularly the western seed grower, is with low priced lands and a market not only open but protected. The bulletin is quite complete with respect to setting out soil adaptations, methods of seeding, harvesting, cleaning and marketing. Negotiations are under way between the Dominion and provincial governments by which cleaning machinery will be installed at several elevators by the Dominion government, and the provincial government will furnish inspectors who will make it their business to maintain the standard of the outgoing Alberta product. The department of agriculture will give all assistance possible in promoting trading between producers and dealers. All enquiries should be directed to the Seed and Weed Branch, department of agriculture, Edmonton.

Communication

Providence Farm, Falun, July 15.

Editor of Times,

Dear Sir,—Will you allow me to express myself through your paper respecting a dire need amongst the pioneer farmers in new settlements?

It is with heavy hearts that many of the Empire builders are struggling along to do their bit. The difficult circumstances of some are heart-rending and yet hoping against hope they patiently plod along. There is a great need for the government to create an agricultural loan institution by which farmers can borrow capital at a reasonable rate of interest. Owing to the foreclosing of mortgages and the restrictions of loan companies against lending money to those who live on property situated over twelve miles from a railway, it is practically impossible for some farmers to carry on their business. The prosperity of the rural workers is at stake—thousands upon thousands upon thousands of fertile acres are going back to their wild state. Will the government of Alberta rise to the grave situation and bravely undertake to do their duty for the Empire builders?

If the government can run a public telephone they can also run a Public loan institution, and probably with a greater security and more

satisfactory results than the present system of capitalistic oppression. The need is urgent and if not attended to promptly may result in serious consequences.

Capital is more necessary in a new settlement than even a telephone and by increasing the producing power of the settlers all other public utilities will be increased and there will be more increase of population on the land.

Yours respectfully,
A Pioneer Farmer,
I. H. Edwards.

Headquarters, A.M.C. Depot, 13, Sarcee Camp,

To the Editor of The Times:

Sir,—I have the honor to request that you call the attention of your readers to the fact that the Army Medical Corps is in urgent need of recruits. A constant demand is being made on this unit for men to go overseas, and we are not able to furnish them as fast as called.

The period of training in Canada is very short. The work is varied and interesting. It extends from the firing line wherever British troops are to be found, to the base hospital, wherever British troops are concentrating.

Only the better class of men are acceptable for this branch of the service. They must be medically fit.

This is an opportunity for constructive service, and should appeal to all men who are working for an early peace. The more men and the more efficient their service the sooner will peace be declared; so let each man do his "bit" in the way that he best can serve.

Clive A. Staples, Capt., Officer Commanding, A.M.C. Depot, Sarcee Mobilization Camp.

BRIGHTVIEW

A meeting will be held in the Brightview school on Wednesday afternoon of next week, July 26, at two o'clock, when the question of drainage will be considered. H. J. Montgomery, M.P.P. will be present and address the meeting on the Drainage Act. A full attendance of those interested in this important work is requested.

ENFORCE THE LAW

No law is ever strictly enforced, says the Albertan, but any law which has the sanction of the people is likely to be well enforced if the central executive is strong. It is the duty of the law-abiding people of this province to do their part in assisting in the enforcement of the Liquor Act. The people asked for prohibition; they enacted prohibition; they must do their part now to enforce it.
